SUMMARY

Aspiring Software Developer with a Master of Computer Applications (MCA) and knowledge of web development, machine learning, and database systems. Experienced in developing academic and team-based projects, with strong analytical, programming, and teamwork skills. Passionate about building innovative software solutions and applying technology to solve real-world problems.

EDUCATION

Central University of Haryana Charkhi Dadri, Haryana
Master of Computer Applications (MCA) 2024 – 2026

CGPA: 7.6

Chaudhary Bansi Lal University Bhiwani, Haryana
Bachelor of Science (Computer Science) 2020 – 2023

First Division

Vaish Sr. Sec. School (HBSE) Charkhi Dadri, Haryana
12th Class, Non-Medical 2020

Percentage: 84.8%

Vaish Sr. Sec. School (HBSE) Charkhi Dadri, Haryana
10th Class 2018

Percentage: 80.8%

PROJECTS

Document Tampering Detection System *(In Progress)*

- Collaborated in a team to engineer a web-based forensic application designed to detect and visualize image/document forgery using Machine Learning.
- Integrated an ML-backed backend with a responsive frontend to handle secure file uploads and display authenticity analysis results.
- Implemented modular components for secure file handling, processing overlays, and data visualization.

Online Attendance System

<https://face-attendance-frontend-iiiej.onrender.com/>

- Developed a real-time web application featuring facial recognition integration for automated attendance marking.
- Designed manual attendance fallback logic using MongoDB Atlas to handle edge cases, ensuring students already marked present are correctly updated without throwing system errors.
- Optimized backend retrieval paths for instant attendance logging and high-efficiency dashboard rendering.

QuizzHere

<https://quizzhere2110.vercel.app/>

- Built an interactive, fully responsive quiz web platform utilizing React.js for dynamic user interfaces.
- Managed complex application states using React hooks to smoothly track user progression, question randomizations, answer selections, and real-time score calculations.

SKILLS

Languages: JavaScript (ES6+), Python, C++, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Context API, Responsive Web Design

Backend & DB: Node.js, Express.js, MongoDB Atlas, RESTful APIs, Git & GitHub

CERTIFICATIONS & ACHIEVEMENTS

CSS Battle- 2nd Position Central University of Haryana

Data Entry Skills- Certification JVMGRR College

Fundamentals of Digital Marketing- Certification Google
